

For Immediate Release

Algoriddim Unveils All-New djay Pro for Windows

djay Pro App was rebuilt from the ground up for Windows, combining its award-winning design with professional features including digital vinyl system control, ASIO support, and Algoriddim's revolutionary Neural Mix

(MUNICH, Germany) – Oct 16, 2023 – Algoriddim today released the all-new, highly anticipated djay Pro for Windows, a major evolution of its award-winning DJ software. After years of meticulous development, djay Pro for Windows has been entirely re-imagined, re-designed, and re-engineered from the ground up, setting a new standard for cross-platform DJing.

"We've completely rebuilt djay Pro from the ground up to shine on Windows." said Karim Morsy, CEO of Algoriddim. "It combines cutting-edge features with our award-winning design that is loved by millions of DJs around the world. This is a massive update, and we can't wait to get it into the hands of our users."

Top features in this landmark release of djay Pro for Windows include:

- **Plug-and-Play Compatibility:** djay Pro for Windows seamlessly integrates with an extensive range of over 100 industry-standard DJ controllers and audio interfaces, delivering ultra-low latency thanks to dedicated ASIO support.
- **Neural Mix** - For the first time on Windows, djay Pro introduces Algoriddim's revolutionary Neural Mix technology. DJs can isolate and manipulate individual elements of any song in real time, offering endless creative possibilities.

- **DVS (Digital Vinyl System)** - Experience the precision and control of analog gear with the introduction of DVS. Connect a compatible mixer with turntables and use timecode vinyl to mix and scratch digital music like never before.
- **Addition of Beatport and Beatsource Streaming** - Directly access your Beatport and Beatsource accounts to find, play, and mix millions of songs, including curated playlists for DJs to instantly discover new music by mood, genre, and popularity. djay Pro is also integrated with TIDAL, SoundCloud, and music stored locally on your device.
- **Revamped Music Library and User Interface:** The music library and user interface have been completely overhauled, offering DJs a wide range of performance modes and flexible layouts to suit their play style and preferences.
- **Stand-Alone Capability:** Whether you're browsing tracks, preparing playlists, or performing without hardware connected, djay Pro functions as a standalone software. Hybrid devices like the Microsoft Surface Pro provide multiple options to control djay Pro's extensive feature set.

With this momentous launch, Algoriddim takes a giant leap forward in its mission to make the art of DJing accessible to everyone. Windows users can now experience the full spectrum of djay Pro's game-changing features, harnessing the full power of the Windows platform. Whether you're an aspiring DJ or a seasoned professional, djay Pro for Windows is designed to meet your needs.
